

FORMCRAFT is very pleased to announce the appointment of Robbie Georges from FORM SUPPLIES PTY LTD in Sydney as Formcraft Sales Agent for NSW & the ACT.

Robbie has had a long association with the construction industry and has extensive knowledge and experience with formwork systems.

He is excited about the features and benefits that Formcraft's FastForm® and FormDeck™ permanent formwork systems offer, and will be working to establish Formcraft as the permanent formwork system of choice throughout NSW and the ACT.

We are extremely confident that Robbie's involvement in this partnership will provide enhanced service to builders, formwork contractors, architects, engineers, and project managers in the residential and commercial building sectors.

Information sessions for architects, engineers and builders, as well as installation training programs for formworkers wanting to become involved in installation will be available.

If you have a project in NSW or the ACT requiring a cost-effective permanent formwork solution for walls or suspended slabs, Robbie would be very pleased to provide any information and cost estimates you require for Formcraft's fast and energy-efficient systems.

He can be contacted on 0414 702 222 or by email to robbie.formsupplies@gmail.com.
